CONTENTS

ANIMAL GENETICS
Molecular Genetics

Quantitative Genetics
Selection for conformation and conformational homogeneity of litters in the German shepherd dog. K. F. Stock, M. Dammann, and O. Distl .................................................. 1088

ANIMAL GROWTH, PHYSIOLOGY, AND REPRODUCTION
Cell Biology
CELL BIOLOGY SYMPOSIUM: Novel technologies and novel insights. D. L. Hamernik ................................................. 1109
CELL BIOLOGY SYMPOSIUM: Zinc finger nucleases to create custom-designed modifications in the swine (Sus scrofa) genome. J. J. Whyte and R. S. Prather ................................................. 1111

Growth and Developmental Biology
Granulated lysozyme as an alternative to antibiotics improves growth performance and small intestinal morphology of 10-day-old pigs. K. D. May, J. E. Wells, C. V. Maxwell, and W. T. Oliver ................................................. 1118
Growth hormone stimulates protein synthesis in bovine skeletal muscle cells without altering insulin-like growth factor-I mRNA expression. X. Ge, J. Yu, and H. Jiang ................................................. 1126
Blood variables and body weight gain on the first day of life in crossbred pigs and importance for survival. V. Root Welt, O. Reksen, W. Farstad, and T. Framstad ................................................. 1134

Physiology, Endocrinology, and Reproduction
PHYSIOLOGY AND ENDOCRINOLOGY SYMPOSIUM: Factors controlling puberty in beef heifers. P. M. Fricke and R. A. Cushman ................................................. 1150
PHYSIOLOGY AND ENDOCRINOLOGY SYMPOSIUM: Harnessing basic knowledge of factors controlling puberty to improve synchronization of estrus and fertility in heifers. G. A. Perry ................................................. 1172
The effect of intravenous insulin infusion on renal blood flow in conscious sheep is partially mediated by nitric oxide but not by prostaglandins. I. Tebot, J.-M. Bonnet, C. Paquet, J.-Y. Ayoub, S. M. Da Silva, V. Louzier, and A. Cirio

ANIMAL NUTRITION

Nonruminant Nutrition

NONRUMINANT NUTRITION SYMPOSIUM: Nutrient and neuroendocrine regulation of gastrointestinal function. D. M. Bravo

NONRUMINANT NUTRITION SYMPOSIUM: Involvement of gut neural and endocrine systems in pathological disorders of the digestive tract. J. B. Furness and D. P. Poole

NONRUMINANT NUTRITION SYMPOSIUM: Neurogastroenterology and food allergies. J. D. Wood

NONRUMINANT NUTRITION SYMPOSIUM: The role of glucagon-like peptide-2 in controlling intestinal function in human infants: Regulator or bystander? D. L. Sigalet

Glycemic index of starch affects nitrogen retention in grower pigs. M. D. Drew, T. C. Schafer, and R. T. Zijlstra

Determination and prediction of digestible and metabolizable energy from chemical analysis of corn coproducts fed to finishing pigs. P. V. Anderson, B. J. Kerr, T. E. Weber, C. J. Ziemen, and G. C. Shurson

Amino acid digestibility of corn distillers dried grains with solubles, liquid condensed solubles, pulse dried thin stillage, and syrup balls fed to growing pigs. J. A. Soares, H. H. Stein, V. Singh, G. S. Shurson, and J. E. Pettigrew

Effects of graded levels of microbial phytase on the standardized total tract digestibility of phosphorus in corn and corn coproducts fed to pigs. F. N. Almeida and H. H. Stein

Ruminant Nutrition

Prediction of physical and chemical body compositions of purebred and crossbred Nellore cattle using the composition of a rib section. M. I. Marcondes, L. O. Tedeschi, S. C. Valadares Filho, and M. L. Chizzotti

Comparison of wheat or corn dried distillers grains with solubles on rumen fermentation and nutrient digestibility by feedlot heifers. L. J. Walter, T. A. McAllister, W. Z. Yang, K. A. Beauchemin, M. He, and J. J. McKinnon

Wheat distillers grains in feedlot cattle diets: Feeding behavior, growth performance, carcass characteristics, and blood metabolites. W. Z. Yang, Y. L. Li, T. A. McAllister, J. J. McKinnon, and K. A. Beauchemin

ANIMAL PRODUCTS

Meat Science and Muscle Biology

Relationship of polymorphisms within metabolic genes and carcass traits in crossbred beef cattle. L. A. Rempel, E. Casas, S. D. Shuckelford, and T. L. Wheeler

Zilpaterol hydrochloride alters abundance of β-adrenergic receptors in bovine muscle cells but has little effect on de novo fatty acid biosynthesis in bovine subcutaneous adipose tissue tissue explants. E. K. Miller, K. Y. Chung, J. P. Hutcheson, D. A. Yates, S. B. Smith, and B. J. Johnson
Health and Well-Being

Associations between weather conditions during the first 45 days after feedlot arrival and daily respiratory disease risks in autumn-placed feeder cattle in the United States. N. Cernicchiaro, D. G. Renter, B. J. White, A. H. Babcock, and J. T. Fox ................................................................. 1328

Management

Kerine environment as a regulator of birth weight and body dimensions of newborn lambs. R. K. Sharma, H. T. Blair, C. M. C. Jenkinson, P. R. Kenyon, J. F. Cockrem, and T. J. Parkinson .................................................................................................................. 1338

Special Topics

Contemporary Issues

Methane production by red-necked wallabies (Macropus rufogriseus). J. Madsen and M. F. Bertelsen .................................................................................................................. 1364

Historic, pre-European settlement, and present-day contribution of wild ruminants to enteric methane emissions in the United States. A. N. Hristov ........................................................................................................ 1371

Announcements and Society Business

News and Notes .................................................................................................................. 1376

Placement .......................................................................................................................... 1377

Southeastern Section Awards ............................................................................................ 1381
Small Animals/Exotic

Antimicrobial drug use in dogs prior to admission to a veterinary teaching hospital ........................... 210
Sarah A. Baker, Joany Van-Balen, Bo Lu, PhD, Andrew Hillier, and Armando E. Hoet

Comparison of the efficacy of amoxicillin-clavulanic acid, cefovecin, and doxycycline in the treatment of upper respiratory tract disease in cats housed in an animal shelter ..................... 218
Annette L. Litster, Ching Ching Wu, and Peter D. Constable

Erythrocyte-bound immunoglobulin isotypes in dogs with immune-mediated hemolytic anemia: 54 cases (2001–2010) ................................................................. 227
Kenneth R. Harkin, Jill A. Hicks, and Melinda J. Wilkerson

Evaluation of preoperative serum concentrations of ionized calcium and parathyroid hormone as predictors of hypocalcemia following parathyroidectomy in dogs with primary hyperparathyroidism: 17 cases (2001–2009) ................................................................. 233
Melissa Arbaugh, Daniel Smek, and Eric Mornet

Use of cecal bypass via side-to-side ileocolic anastomosis without ileal transection for treatment of ileocecal intussusception in a Vietnamese pot-bellied pig (Sus scrofa) ................................................................. 237
Shannon K. Reed, John R. Middleton, Davin Ringen, and Dusty Nagy

Equine

Seasonal variation in results of diagnostic tests for pituitary pars intermedia dysfunction in older, clinically normal geldings ................................................................. 241
Christopher M. Schreiber, Allison J. Stewart, Eddy Kwessi, Ellen N. Behrend, James C. Wright, Robert J. Kemppainen, and Katherine A. Busch

Ruminants

Examining the occurrence of residues of flunixin meglumine in cull dairy cows by use of the flunixin cull cow survey ................................................................. 249
Cynthia L. Deyrup, Kristal J. Southern, Julie A. Cornett, Craig E. Shultz, and Deborah A. Cera

From this month's American Journal of Veterinary Research

Diagnosis of lameness in dogs by use of artificial neural networks and ground reaction forces obtained during gait analysis ................................................................. 232
Makiko Kajima, Timothy L. Foutz, Ronald W. McClendon, and Steven C. Budsberg

Effects of dopamine and dobutamine on isoflurane-induced hypotension in Hispaniolan Amazon parrots (Amazona ventralis) ................................................................. 240
Rodney W. Schnellbacher, Anderson F. da Cunha, Hugues Beaufrère, Patricia Queiroz, Javier G. Nevarez, and Thomas N. Tully Jr

Effects of syringe type and storage conditions on results of equine blood gas and acid-base analysis ................................................................. 248
Sarah A. Kennedy, Peter D. Constable, Ismail Sen, and Laurent Couëtil

American Journal of Veterinary Research Table of Contents ................................................................. 254

EDITORIALS
377 Biological rhythms, jetlag and performance in Thoroughbred racehorses
D. J. TORTONESE AND R. V. SHORT
379 Hide and seek: Diagnosing equine viral diseases using molecular biology techniques
M. F. CAT-H-CART AND P. R. MURCIA
382 Repair or destruction: Optimising therapies for joint diseases
P. D. CLEGG
384 On the question of colic: Are answers beginning to emerge?
C. M. MARR

GENERAL ARTICLES
387 The molecular epidemiology of equine influenza in Ireland from 2007–2010 and its international significance
S. GILDEA, M. QUINLIVAN, S. ARKINS AND A. CULLINANE
393 A randomised, double-blinded, placebo-controlled study on the efficacy of a unique extract of green-lipped mussel (Perna canaliculus) in horses with chronic fetlock lameness attributed to osteoarthritis
J. CAYZER, D. HEDDERLEY AND S. GRAY
399 Use of ethanol in the treatment of distal tarsal joint osteoarthritis: 24 cases
404 Synovial fluid chondroitin sulphate indicates abnormal joint metabolism in asymptomatic osteochondritic horses
T. S. L. MACHADO, L. C. L. CORREA DA SILVA, R. Y. A. BACCARIN AND Y. M. MICHELACCI
412 Use of a radiofrequency probe for tenoscopy-guided annular ligament desmotomy
A. M. MCCOY AND L. R. GOODRICH
416 Complications after two transphyseal bridging techniques for treatment of angular limb deformities of the distal radius in 568 Thoroughbred yearlings
E. R. CARLSON, L. R. BRAMLAGE, A. A. STEWART, R. M. EMBERTSON, A. J. RUGGLES AND S. A. HOPPER
420 A comparative study of proximal hindlimb flexion in horses: 5 versus 60 seconds
A. R. ARMENTROUT, W. L. BEARD, B. J. WHITE AND J. D. LILICH
425 Characteristics of Thoroughbred and Quarter Horse racehorses that sustained a complete scapular fracture
432 The effects of an advanced uterine environment on embryonic survival in the mare
S. WILSER, A.-C. LEFRANC AND W. R. ALLEN
440 Circannual variation in plasma adrenocorticotrophic hormone concentrations in the UK in normal horses and ponies, and those with pituitary pars intermedia dysfunction
V. E. N. COPAS AND A. E. DURHAM
444 Use of proxy measurements of insulin sensitivity and insulin secretory response to distinguish between normal and previously laminitic ponies
449 An evaluation of the Abaxis VSTpro for the measurement of equine plasma fibrinogen concentrations
K. L. EPSITEIN AND B. M. BRAINARD
453 Pharmacokinetics and distribution of minocycline in mature horses after oral administration of multiple doses and comparison with minimum inhibitory concentrations
L. V. SCHNABEL, M. G. PAPICH, T. J. DIVERS, C. ALTER, M. S. APREA, T. M. McCARREL AND L. A. FORTIER
466 A questionnaire study on parasite control practices on UK breeding Thoroughbred studs
V. E. REFL, E. R. MORGAN, J. E. HODGKINSON AND J. B. MATTHEWS
472 Colic in competing endurance horses presenting to referral centres: 36 cases
C. L. FIELDING AND J. E. DECHANT
476 Post operative infection, pyrexia and perioperative antimicrobial drug use in surgical colic patients
K. D. FREEMAN, L. L. SOUTHWOOD, L. LANE, S. LINDBERG AND H. W. ACETO
482 Evaluation of a wireless ambulatory capsule (SmartPill®) to measure gastrointestinal tract pH, luminal pressure and temperature, and transit time in ponies
A. M. STOKES, N. L. LAVIE, M. L. KEOWN, L. GASCHEN, F. P. GASCHEN, D. BARTHET AND F. M. ANDREWS

SHORT COMMUNICATION
487 Effects of acute exercise on angiotensin I-converting enzyme (ACE) activity in horses
M. F. DE MELLO COSTA, G. A. ANDERSON, H. M. DAVIES AND R. F. SLOGOMBE

REVIEW ARTICLE
490 Pattern recognition receptors in equine endotoxaemia and sepsis
A. H. WEBERS AND C. E. BRYANT

CORRESPONDENCE
