Dental Traumatology

EDITORIAL
Impressive research development in dental traumatology from Brazil

ORIGINAL ARTICLES
Initial assessment of responsiveness of the P-CPQ (Brazilian Version) to describe the changes in quality of life after treatment for traumatic dental injury
Influence of different types of mouthguards on strength and performance of collegiate athletes: a controlled-randomized trial
Comparative study of cone beam computed tomography and intraoral periapical radiographs in diagnosis of lingual-simulated external root resorptions
Parents’ ability to recall past injuries to maxillary primary incisors in their children
The effect of splint material and thickness on tooth mobility after extraction and replantation using a human cadaveric model
Fracture susceptibility of endodontically treated teeth
Dental injuries in water polo, a survey of players in Switzerland
A method to maintain the thickness of the mouthguard after the vacuum forming process: changes of the holding conditions of the mouthguard sheet
The effect of frequency of calcium hydroxide dressing change and various pre- and interoperative factors on the endodontic treatment of traumatized immature permanent incisors
Influence of white mineral trioxide aggregate on inflammatory cells before and after expiry date
Periapical tissue reactions to calcium hydroxide and MTA after external root resorption as a sequela of delayed tooth replantation
Knowledge of nurses working at schools in Bialystok, Poland, of tooth avulsion and its management
Release and diffusion of hydroxyl ion from calcium hydroxide-based medicaments

CASE REPORTS
Comminuted mandibular fracture in child victim of dog bite
Detection of vertical root fractures in non-endodontically treated molars using cone-beam computed tomography: a report of four representative cases

### Periodontal Diseases

Salivary proteome modifications associated with periodontitis in obese patients  

Characterization and immunosuppressive properties of mesenchymal stem cells from periapical lesions  
J. Dokić, S. Tomić, S. Cerović, V. Todorović, R. Rudolf and M. Čolić

Serum lipids modify periodontal infection - C-reactive protein association  

Tooth loss is associated with increased blood pressure in adults - a multidisciplinary population-based study  
M. A. Peres, G. Tsakos, P. R. Barbato, D. A. S. Silva and K. G. Peres

The impacts of gingivitis and calculus on Thai children's quality of life  
S. Krisdapong, P. Prasertsom, K. Rattanarangsima, A. Sheiham and G. Tsakos

### Periodontal Therapy

Effects of self-efficacy on oral health behaviours and gingival health in university students aged 18- or 19-years-old  

Survival of molar teeth after regenerative periodontal therapy - A retrospective study  
K. L. Lee, E. F. Corbet and W. K. Leung

Periodontal regeneration employing gingival margin-derived stem/progenitor cells: an animal study  

A Randomized comparative clinical study of two surgical procedures to improve root coverage with the acellular dermal matrix graft  

### Implant Therapy

Influence of hyperbaric oxygen therapy on peri-implant bone healing in rats with alloxan-induced diabetes  

A methodological approach to assessing alveolar ridge preservation procedures in humans: hard tissue profile  

Predictors of inter-proximal and midfacial recession following single implant treatment in the anterior maxilla: a multivariate analysis  
J. Cosyn, M. M. Sabzevar and H. De Bruyn

Mohammad D. Kanauj, John M. Whitworth, and John Gerard Meecham

**Review Article** 426 Antagonistic Interactions between Sodium Hypochlorite, Chlorhexidine, EDTA, and Citric Acid
Giampiero Rossi-Fedele, Esma J. Dogramaci, Andrea R. Guastalli, Liviu Steier, and Jose Antonio Poli de Figueiredo

**Clinical Research** 432 10-year Survival Evaluation for Glass-fiber—supported Postendodontic Restoration: A Prospective Observational Clinical Study
Michael Naumann, Manja Koelpin, Florian Beuer, and Hendrik Meyer-Lueckel

436 Comparative Analysis of Accessory Mesial Canal Identification in Mandibular First Molars by Using Four Different Diagnostic Methods
Kenia Maria Pereira Soares de Tóubes, Maria Elma de Souza Cortes, Maria Alice de Abreu Valadares, Luciana Cardoso Fonseca, Eduardo Nunes, and Frank Ferreira Silveira

442 Success Rates for Removing or Bypassing Fractured Instruments: A Prospective Clinical Study
Giselle Naves, Rodrigo Sanches Canha, Márcio Luís Zuolo, and Carlos Eduardo da Silveira Bueno

445 In Vivo Efficacy of Three Different Endodontic Irrigation Systems for Irrigant Delivery to Working Length of Mesial Canals of Mandibular Molars
Hugo Roberto Munoz and Karla Camacho-Cuadra

**Basic Research—Biology** 449 Apical Periodontium Response to Enamel Matrix Derivative as an Intracanal Medication in Rat Immature Teeth with Pulp Necrosis: Radiographic and Histologic Findings
Roberta Kochenborger Scarparo, Lenara Dondoni, Daiana Elisabeh Bötcher, Fabiana Soares Grecca, Jose A.P. Figueiredo, and Eraldo L. Batista, Jr

454 Coculture of Dental Pulp Stem Cells with Endothelial Cells Enhances Osteo-/Odontogenic and Angiogenic Potential In Vitro
Waruna Lakmal Dissanayake, Xuan Zhan, Chengfei Zhang, Kenneth M. Hargreaves, Lijian Jin, and Edith H.Y. Tong

464 Lipopolysaccharide Enhances Decorin Expression through the Toll-like Receptor 4, Myeloid Differentiating Factor 88, Nuclear Factor-Kappa B, and Mitogen-activated Protein Kinase Pathways in Odontoblast Cells
Wenxi He, Tiejun Qu, Qing Yu, Zhibua Wang, Hanguo Wang, Jing Zhang, and Anthony J. Smith

470 Vesicular Glutamate Transporters in Axons That Innervate the Human Dental Pulp
Sang Kyoo Paik, Sang Kuk Kim, Su Jang Choi, Eun Sun Yang, Sun Ho Ahn, and Yong Chul Bae

475 High-purity Hepatic Lineage Differentiated from Dental Pulp Stem Cells in Serum-free Medium
Nikolay Ishkhatiev, Ken Yagaki, Toshio Imai, Tomoko Tanaka, Taka Nakahara, Hiroshi Ishikawa, Vanyo Mitev, and Markus Haapasalo

481 T-Lymphocyte and Cytokine Expression in Human Inflammatory Periapical Lesions
Luciana Carla Neves de Britto, Flávia Rocha Fonseca Teles, Ricardo Palmieri Teles, Antônio Helvécio Tosiola, Leda Quércia Vieira, and Antonio Paulino Ribeiro Sobrinho
A Comparison of the Cytotoxicity and Proinflammatory Cytokine Production of EndoSequence Root Repair Material and ProRoot Mineral Trioxide Aggregate in Human Osteoblast Cell Culture Using Reverse-Transcriptase Polymerase Chain Reaction
Maria Ciasca, Anita Aminosubatia, Ge Jin, Thomas Montagnese, and Andre Nickel

In Vitro Evaluation of MTAD and Nisin in Combination against Common Pathogens Associated with Root Canal Infection
Zhongchun Tong, Lin Zhou, Rong Xiang, Haipeng Li, Tiejun Qu, and Longxing Ni

Cytotoxicity and Genotoxicity of Root Canal Sealers Based on Mineral Trioxide Aggregate
Claudia V. Bin, Marcia C. Valera, Samira E.A. Camargo, Sylvia B. Rebelo, Gleyce O. Silva, Ivan Balducci, and Carlos Henrique R. Camargo

Effects of Various Mixing Techniques on Push-out Bond Strengths of White Mineral Trioxide Aggregate
Shahrar Shabi, Saeid Rahimi, Hamid Reza Yavari, Mohammad Samiei, Maryam Janani, Mahmoud Babari, Majid Abdolrahimi, Farzaneh Pashke, and Amirata Aghbal

Canal Shaping with WaveOne Primary Reciprocating Files and ProTaper System: A Comparative Study
Elia Berutti, Giorgio Chianucci, Davide Salvatore Paolino, Nicola Scotti, Giuseppe Cantatore, Arnaldo Castellucci, and Damiano Pasquale

Evaluation of Push-out Bond Strength of Two Endodontic Post Systems
Konstantinos Mastoras, Leonidas Vasiliadis, Elizabeth Koulouzidou, and Christos Gogos

An In Vitro Cyclic Fatigue Analysis of Different Endodontic Nickel-Titanium Rotary Instruments
Nilav Bhagabati, Seema Yadav, and Sangeeta Talwar

Are Endodontically Treated Incisors Reliable Abutments for Zirconia-based Fixed Partial Dentures in the Esthetic Zone?
René Tunjan, Martin Rosenstritt, Guido Sterzenbach, Arndt Häße, Roland Frankenberger, Rainer Seemann, and Michael Naumann

Treatment of Root Canal Biofilms of Enterococcus faecalis with Ozone Gas and Passive Ultrasound Activation
Peter D. Case, Philip S. Bird, William A. Kohler, Roy George, and Laurence J. Walsh

Effect from Cyclic Fatigue of Nickel-Titanium Rotary Files on Torsional Resistance
Ju-Young Kim, Gary Shun-Fan Cheung, Se-Hee Park, Dae-Cheol Ko, Jin-Wook Kim, and Hyeon-Cheol Kim

Effect of Laser-activated Irrigation of 1320-Nanometer Nd:YAG Laser on Sealer Penetration in Curved Root Canals
Young-Mi Moon, Hyeon-Cheol Kim, Kwang-Shik Bae, Seung-Ho Baek, Won-Jun Shin, and WoobCheol Lee

Failure of Setting of Mineral Trioxide Aggregate in the Presence of Fetal Bovine Serum and Its Prevention
Yuran Kim, Siayoung Kim, Yoo Seok Shin, H-Young Jung, and Seung Jong Lee
Cyclic Fatigue and Torsional Resistance of Two New Nickel-Titanium Instruments Used in Reciprocation Motion: Reciproc Versus WaveOne
Hyeon-Gheed Kim, Sang-Won Kuk, Gary Shun-Pan Cheung, Du-Hoon Ko, Se-Min Chung, and Woongcheol Lee

Evaluation of Antibacterial Effects by Atmospheric Pressure Nonequilibrium Plasmas against Enterococcus faecalis Biofilms In Vitro
Tianfeng Du, Jingshi Ma, Ping Yang, Zilan Xiong, Xinpai Lu, and Yingguang Cao

Case Report/Clinical Techniques 550 Surgical Management of Vertical Root Fractures for Posterior Teeth: Report of Four Cases
Spyros G. Floratos and Samuel J. Katchman

# TABLE OF CONTENTS

Impact of Anxiety on Pain Perception Associated With Periodontal and Implant Surgery in a Private Practice ........................................... 1079
Øystein Fardal, Christopher A. McCulloch
For periodontal surgery and implant treatments, pain perception was affected by the level of presurgical anxiety.

A Novel Approach to the Use of Doxycycline-Loaded Biodegradable Membrane and EDTA Root Surface Etching in Chronic Periodontitis: A Randomized Clinical Trial ........................................... 1086
Ahmed Y. Gamal, Radi M. Kumper
In this study, doxycycline loaded on a biodegradable collagen membrane following EDTA root surface etching was found to be available in the gingival crevicular fluid for up to 21 days.

Association Between Vitamin D Receptor Polymorphisms and Periodontitis: A Meta-Analysis ......................................................... 1095
Li-Li Chen, Hao Li, Peng-peng Zhang, Shu-mei Wang
Although no overall association was observed between vitamin D receptor polymorphisms and periodontitis, a significant association was found for one polymorphism and chronic periodontitis in Asians.

The Effect of Internal Versus External Abutment Connection Modes on Crestal Bone Changes Around Dental Implants: A Radiographic Analysis ........................................... 1104
Ki-Tae Koo, Eun-jeong Lee, Jae-Yoon Kim, Yang-Jo Seol, Jung Suk Han, Tae-II Kim, Yong Moo Lee, Young Ku, Ulf M.E. Wilkesjö, In-Chul Rhyu
Crestal bone level changes and bone pattern changes were more prominent in external connection type implants.

Relationship Between Serum Albumin Concentration and Periodontal Condition in Patients With Head and Neck Cancer ................................... 1110
Takayuki Maruyama, Reiiko Yamaraka, Aya Yokoi, Daisuke Ekuni, Takasaki Tonomoju, Nobuyoshi Mizukawa, Tomoo Onoda, Motoharu Eguchi, Manabu Morita
In patients with head and neck cancer, mean clinical attachment level was associated with serum albumin concentration.
A Comparative Evaluation of the Antibacterial Efficacy of Honey In Vitro and Antiplaque Efficacy in a 4-Day Plaque Regrowth Model In Vivo: Preliminary Results. ................................................. 1116
S. Aparna, S. Srirangarajan, Veena Malgi, Krishnanand P. Setlur, R. Shashidhar,
Swati Setty, Srinath Thakur
This study compared honey mouthrinses to chlorhexidine and saline for in vitro
anti-microbial activity for in vivo anti-plaque activity; honey was superior to
saline in plaque prevention and was not statistically different from chlorhexidine.

Effect of Gingivitis on Azithromycin Concentrations in Gingival
Crevicular Fluid ................................................................. 1122
Nidhi Jain, Pin-Chuang Lai, John D. Walters
Systemic azithromycin reached similar concentrations in gingival crevicular fluid
from gingivitis sites and healthy sites.

Trefoil Factors in Saliva and Gingival Tissues of Patients
With Chronic Periodontitis .................................................. 1129
Ponlatham Chaiyant, Anek Chayasadom, Nawarat Wara-Aswapati,
Doodsaede Hormdee, Sapatporn Sittisomwong, Sirinun Nakaressoon,
Mie Hesselund Samson, Waranuch Pithpat, Andrew S. Giraud
Trefoil factor 3 expression in saliva and gingival tissues of patients with chronic
periodontitis were reduced as compared with non-periodontitis controls.

Comparison of Microbial Changes in Early Redeveloping Biofilms
on Natural Teeth and Dentures ............................................. 1139
P.R. Teles, R.P. Teles, A. Sachdeo, N.G. Uzel, X.Q. Song, G. Torresyap, M. Singh,
A. Papas, A.D. Haffajee, S.S. Socransky
Microbial biofilm composition and development in natural and denture teeth differed
substantially and these differences seemed due in part to the nature of the surface
for bacterial attachment and the availability of gingival crevicular fluid.

Systemic Ornidazole as an Adjunct to Non-Surgical Periodontal
Therapy in the Treatment of Chronic Periodontitis: A Randomized,
Double-Masked, Placebo-Controlled Clinical Trial. ................ 1149
A.R. Pradeep, Nitish Kalra, N. Priyanka, Ella Khaneja, Savitha B. Naik, Sonender P. Singh
Systemic ornidazole as an adjunct to non-surgical periodontal therapy was superior
to placebo 6 months after treatment of moderate to severe chronic periodontitis patients.
CONTENTS  continued

Efficacy of Local Drug Delivery of 0.5% Clarithromycin Gel as an Adjunct to Non-Surgical Periodontal Therapy in the Treatment of Current Smokers With Chronic Periodontitis: A Randomized Controlled Clinical Trial. ................................. 1155
Esha Agarwal, A.R. Pradeep, Pavan Bajaj, Savitha B. Naik
Subgingivally delivered 0.5% clarithromycin improved clinical parameters among smokers with chronic periodontitis.

Influence of Placement Depth on Bone Remodeling Around Tapered Internal Connection Implant: A Clinical and Radiographic Study in Dogs ......................................................... 1164
Baoxin Huang, Huanxin Meng, Muzi Piao, Li Xu, Li Zhang, Weidong Zhu
Subcrestal placement of implants with tapered internal implant-abutment interface had a positive impact on crestal bone preservation around the implant's cervix.

Effects of Low-Dose Doxycycline and Bisphosphonate Clodronate on Alveolar Bone Loss and Gingival Levels of Matrix Metalloproteinase-9 and Interleukin-1β in Rats With Diabetes: A Histomorphometric and Immunohistochemical Study ................................. 1172
Selin P. Özdemir, Bülent Kurtik, Gülay Tüter, Şeyma Bozkurt, Sibel Elif Gültekin, Burcu Sengüven, Keiko Watanabe, Sevtap Aydın
In a rat diabetes model with induced periodontitis, monotherapy and combined clodronate and low-dose doxycycline therapies reduced the expression of matrix metalloproteinase-9 and interleukin-1β in gingival tissue.

Relationships Among Interleukin-6, Tumor Necrosis Factor-α, Adipokines, Vitamin D, and Chronic Periodontitis .......................................................... 1183
Flavia R. Teles, Ricardo P. Teles, Lynn Martin, Sigmund S. Scornisky, Anne D. Haftajee
In this clinical study of patients with chronic periodontitis, adipokines and interleukin-6 levels were associated with sex and body mass index but were not associated with clinical or microbial parameters and were not influenced by periodontal therapy.

Effect of Priming in Subpopulations of Peripheral Neutrophils From Patients With Chronic Periodontitis .......................................................... 1192
Margareta I. Fredriksson
A subpopulation of peripheral neutrophils from patients with chronic periodontitis was more sensitive to interleukin-8 priming than those from healthy age- and sex-matched controls.
